Electronic Fan Clutches

Hayden is pleased to announce the release of three new electronic fan clutches covering over 1.2 million late model domestic and import trucks.

Hayden manufactures fan clutches in our North American ISO:9001 certified production facility. For each manufactured clutch, Hayden procures several O.E. sample clutches and matching fans for testing and development. Hayden uses the data gathered from extensive testing of the O.E. unit to design a true quality replacement in fit, form and function to meet or exceed O.E. specifications.
